Summary

A full-stack developer with nearly **3 years** of experience, I'm a quick learner and problem solver, with a future in game development. My expertise includes designing and deploying solutions for mobile and web servers using **Flutter, ReactJS, Node.js** and **Python** with both **SQL** and **NoSQL** databases. I'm also familiar with **Docker, Kubernetes, microservice architecture, Java Spring Boot, MVC patterns, PySpark, Redis** and **ScyllaDB**. I have a proven track record of successful project deliveries and a commitment to stay updated with industry trends.

Skills

NodeJS (ExpressJS), Python (FastAPI), Flutter, ReactJS, ElectronJS, SQL(using orm), NoSQL (using ODM), Docker, Git.

Experience

Zedbyte Software Solutions

01/05/2021 – 31/12/2023

<https://zedbyte.in>

Chennai, India

- Developed a high-performance room/home searching app with **Python, AWS S3, MongoDB** and a **Flutter/Dart** mobile app and can handle **10k requests/min** and searches over **100,000 houses** in less than **100ms**. The app is hosted on **EC2** and available on the **Google Play Store**.
- Engineered a comment system using **Node.js** and **MongoDB**, featuring a capability to delete entire comment/blog structures through **Apache Airflow** jobs.
- Implemented a live location tracking and monitoring tool using **Redis** and **Python**, capable of handling nearly **10k messages/second** for **10K simultaneous connections**.
- Designed and deployed a robust Airflow job, integrating with **PySpark** for efficient and automated extraction, transformation, and loading (ETL) of daily trip data stored in MongoDB.
- Collaborated on the development of a social media app with versatile post/comment structures and follow logic.
- Developed **React.js** portfolio websites with advanced libraries like **Theatre.js, React Three Fiber, Spline** and **Framer Motion**.
